Blanisol® Duftreiniger

Scented cleaning concentrate for surfaces

Product Information

Please read carefully!

Blanisol® Duftreiniger
Concentrate

For professional use

INGREDIENTS

< 5% anionic tensides, < 5% non-ionic tensides, alcohol, perfume

SCOPE OF APPLICATION

A perfumed and gentle cleaning concentrate suitable for all water-resistant materials and varnished surfaces, including materials like plastic, glass, ceramic, enamel, stainless steel, etc.

INSTRUCTIONS FOR USE / DOSAGE

In case of normal amount of contamination: Add 50–100 ml of **Blanisol® Duftreiniger** to 10 litres of lukewarm water. Simply wipe clean streak-free. Further rinsing or wiping not necessary. In case of strong contamination, use a higher dosage, and wipe a second time if necessary.

WARNING AND STORAGE NOTICES

- Keep disinfectant at a cool but frost-free, well ventilated and dry place and out of reach of children.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice. Wear protective gloves.
- Do not use after expiration date.

PRODUCT FEATURES

- Neutral.
- Clear-drying effect.
- Pleasant scent.

SPECIAL NOTICES

a) Countermeasures in case of improper use

Should, through improper use, the product **Blanisol® Duftreiniger** have come into contact with any mucous membranes (e.g., eyes, throat, or stomach), a doctor should be consulted immediately. As an immediate measure, dilution of the preparation is recommended. In case of oral ingestion, drink plenty of water. In case of contact with the eyes, rinse thoroughly with generous amounts of water.

b) Use **Blanisol®-Duftreiniger** safely. Always consult label and product information before use.
