PROTECTION/CARE

Wasa®-Soft

Skin Cleansing Lotion
For sensitive or stressed skin

Product Information

Please read carefully!

Wasa®-Soft

INGREDIENTS

Aqua, Sodium Laureth Sulfate, Sodium Chloride, Alcohol Denat., Disodium Cocoamphodiacetate, PEG-200 Glyceryl Hydrogenated Palmitate, PEG-7 Glyceryl Cocoate, Parfum, Sorbic Acid, Citric Acid, Dibutyl Adipate, CI 42090, CI 47005

PRODUCT FEATURES

- **Wasa®-Soft** cleans gently and thoroughly, even with heavy contamination.
- Excellent skin compatibility even with use of alcoholic hand disinfectants.
- Is also well tolerated by skin sensitive to soap.
- Preserves the skin's natural protective barrier.
- Forms a mild foam with a pleasant scent.
- Leaves no lime residue.
- Free of alkali.
- Skin-neutral pH value.

SCOPE OF APPLICATION

- **Wasa®-Soft** is suitable for regular use due to its skin compatibility and is particularly recommended if frequent washings are necessary for professional reasons.
- Prior to surgical and hygienic hand disinfection.
- For washing and showering.
- For general body cleansing.
- Suited for use even in case of sensitivity against alkaline soaps.

INSTRUCTIONS FOR USE/DOSAGE

Moisten hands or skin, wash with **Wasa®-Soft**, rinse well, then let dry. For foam baths and body washes, apply a greater amount of **Wasa®-Soft**.
